

## Heavenly – Healthier Pecan Pie

Posted on Mar 12, 2009 ~ Revised January 2022

In the food Processor or slicer/shredder with the whisk assembly, mix:

- 8 oz cream cheese
- 2 tablespoons agave syrup
- 1 teaspoon maple powder
- dash salt
- 1 egg

Spread in an unbaked pie shell. Cover with pecans.

Combine:

- ½ cup agave syrup
- 3 eggs
- 1 teaspoon maple powder
- dash of salt.

Pour over pecans. Bake for 35 minutes at 325° until golden & ‘set.’ Cool & serve. We prepare this for special family gatherings, one of those ‘gotta have it’ recipes.
